

## PROGRAM QUICK FACTS

# BASIS Independent Silicon Valley

*An innovative education experience in the tech center of the United States.*

What happens when best practices from top education systems in the world, places like Singapore, Finland, and Shanghai, are infused with the creativity and spirit that defines American education? **BASIS Curriculum Schools!**

Our program, rooted in the liberal arts and sciences, is recognized as the gold standard in preparing students with the content knowledge, critical thinking skills, and creative problem-solving skills that open up a world of possibility, of unlimited potential, in whatever pursuit they seek.

### **San Jose and Silicon Valley**

- › Home of famous tech companies such as Facebook, Google, and Cisco.
- › Diverse population of innovators in every field from engineering to medicine.
- › Great mix of urban and suburban living, with plenty of opportunities to enjoy the outdoors.
- › Access to a number of cultural and social opportunities such as concerts, sports games, cinemas, and museums.
- › In addition, San Jose has many green parks to safely ride a bicycle or walk with friends and enjoy the blue skies.

### **Gateway to the Bay Area**

BASIS Independent Silicon Valley is a short light-rail ride away from San Francisco, one of the nation's cultural hubs and home to the iconic Golden Gate Bridge.
