

Transportation Guide

BASIS Independent Silicon Valley is committed to continuing to ensure that transportation to-and-from school is as convenient as possible. Our transportation program will include both morning and afternoon bus service options.

When you register your Bobcat for transportation for the 2022–23 year, you are placing your name on a waitlist for that route. Based on the actual registration, final pricing will be determined. Please note that all routes are subject to change or cancellation due to low registration.

More details regarding the transportation registration open dates and other details will be disclosed at a later time.

Transportation registration is non-refundable and non-transferable.
