

Mastery in core disciplines like Math, English, History, and the Sciences is a key component of the BASIS Curriculum education. In addition to inspiring academic excellence in these foundational courses, we here at BASIS Independent Fremont strive to provide a wide range of electives at the AP and non-AP level to give our students the opportunity to discover new passions and build their knowledge of the wider world. Students are able to express their creativity and learn new skills throughout the school day, and a lifelong love of learning can flourish.

All students will select their top three elective choices and will be fulfilled based on availability. Electives are subject to change year to year based on student interest and participation.
